Genius
IT SOLUTIONS

About us

Genius IT Solutions Abu Dhabi was established in Abu Dhabi 2001, is one of the well-known service providers engaged in offering various IT management services and solutions.

Genius IT Solutions has been hired by many European companies to build up and develop their middle-east businesses in the field of IT & Telecommunication.

We have achieved the customer loyality and create value in their eyes , for providing turnkey IT Solutions in the field of Application Development,Hardware and networking solutions , Audio Visual and communication solutions , for government sector, hospitality industry, private sector and oil field service companies. Our recent success expands our operations to Dubai and Northern Emirates by appointing resident engineers mainly in northern Emirates.

We provide complete IT Management Services & Solutions that enables our customer's to plan implement and utilize their IT Infrastructure and requirements in an efficient manner cost effectively. With our trained professionals we can provide top class services in IT enabled services. We are deeply committed to creating a unique culture that is shaped by our core values which drive our culture.

Team Genius IT

Key to the success and development of Genius IT Solutions is our dedication to provide a comprehensive range of services from highly–skilled professionals. Technical expertise together with our understanding of new technologies and advanced managed services has enabled Genius IT Solutions to gain accreditations with major vendors,

The latest media technique is the passion of Genius IT. With a team of over 30+employees and with more than 18 years f experience, we provide tailor-made communication solutions as per the costumers needs.

We strongly believe that
"Our work speaks for us"

Objective

Our philosophy is simple, by being your technology partner our aim is to help all our clients reach their business goals through appropriate and effective use of technology.

By proving Trunkey and bespoke solutions we can help you to meet your business requirements from proof of concept to implementation & support. We are here to help you with IT projects of any size or complexity. We can deliver exactly what you need and ensuring that our solutions will not only provide the requirements' for today but also tomorrow.
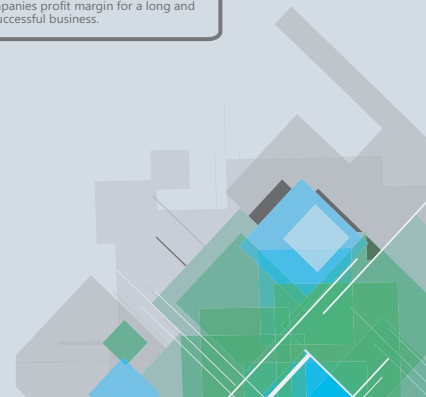

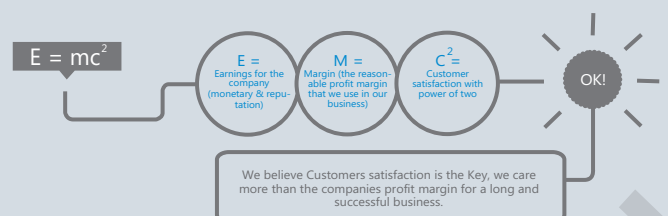

Our Mission & Vision

Our mission is to become one of the most successful networking companies in the world , by offering unique,smart,cost-effective, trusted and responsible service ,and by being beside the customer,we try to live true to our motto.

We aim to become leaders in all the services which we provide, that in turns lead us to become pioneers in IT infrastructure management

Our Quality Policy

Genius IT is committed in providing a quality based approach and SLA Based Administration to its customers.

$E = mc^2$

E =
Earnings for the company (monetary & repu-tation)

M =
Margin (the reason-able profit margin that we use in our business)

C^2 =
Customer satisfaction with power of two

OK!

We believe Customers satisfaction is the Key, we care more than the companies profit margin for a long and successful business.

We are a team of qualified IT professionals delivering IT support services and software development. We provide installation, maintenance and repair services for all aspects of IT networks, together with software solutions designed to help your business run smoothly and efficiently.

Areas such as patch management and regulatory compliance only add to the time and effort required to maintain a technology infrastructure. Genius IT can help you maintain your network and your sanity through a Network Advantage agreement that is easily budgeted and much less expensive than in-house IT staff. Selecting the level of Genius IT consulting services appropriate for your business can easily start a Network Advantage Agreement.

Genius IT is a leading supplier for Structured Cabling, CCTV, AV, Access Control, PA Systems in Abu Dhabi offering competitive prices for quality products & prompt service at all times.

Our company values of Integrity, Teamwork, Attitude, Performance and Passion were carefully chosen and the framework for our commitment to outstanding customer service as well as guiding our daily actions.
